

AACH (PTY)LTD

AUTO COMMODITIES HOLDINGS

=====

WHO WE ARE

CONSOLIDATED GROUP

Auto Commodities Holdings (Pty) Ltd is the result of a consolidation of the fuel, transport and warehousing activities of three companies in providing a smart turnkey solution to the greater fuel, transport and logistics Sectors.

FUEL STORAGE DEPOTS

The Fuel Division of the group is involved in the trading, import, local sourcing, storage, distribution and wholesale of fuel through a distribution network of inland storage facilities. The Fuel Division also distributes various lubricants to end users through its distribution channels. This includes Auto Commodities (Pty) Ltd, Auto Commodities Northern Cape (Pty) Ltd and Phodilogistics (Pty) Ltd, a Level One BBBEE fuel wholesaler, importer & exporter. The majority of fuel distribution and collections are enhanced by supplying product from our own operated storage depots and terminals, resulting in a timeous and customized service to our clients.

TRANSPORT, LOGISTICS AND WAREHOUSING

Our Transport, Logistics and Warehousing division provides various unique solutions to a vast variety of customers. Through our association with PhodiLogistics (Pty) Ltd, Metal Line Projects (Pty) Ltd, Payloads Bulk (Pty) Ltd and Robust Carriers Botswana (Pty) Ltd, we incorporated the services of supply chain solutions for bulk mining commodities in the Chrome, Copper, Iron Ore, Lithium and Manganese sectors. We offer an unique, holistic, end-to-end solution, providing customers with a service offering that includes flexible and multi-tiered smart transport solutions and bulk handling facilities through our warehousing infrastructure. We also offer a freight forwarding and clearing service.

OUR VISION

To become a market leading independant Southern-African commodity & smart logistics supplier & distributor.

OUR MISSION

To supply good quality products and services through an innovative safe & unique transport solution to give our customers peace of mind.

OUR STRATEGY

- Continuous improvement creating a sustainable business that drives shareholder value.
- Diversify operations across industry value chain.
- Constant focus on delivering a guaranteed supply of product through the most efficient & economical logistics function.

ECONOMIC EMPOWERMENT

Auto Commodities Holdings (Pty) Ltd, in conjunction with partners and service providers have embarked on various initiatives with regards to being a forerunner on compliance with the Liquid Fuels and Transport Sector Charter codes and requirements. Our Enterprise Supplier Development program focuses on Preferential Procurement, Supplier Diversity, Supplier Development and Enterprise Development.

Our Socio-Economic and Skills Development programs specifically targets previously disadvantaged individuals with regards to training, wellbeing and welfare as well as Corporate Social Responsibility initiatives.

We identified Small Emerging Companies with whom we have partnered in the Rail Logistics, Fuel Distribution, Transport and Warehousing functions. This allows us to assist with skills-transfer, economic growth and functional mentorship in respect of multi-tiered smart transport solutions and bulk handling facilities.
